

North End FSA Online Directory 2023-24

Each year, the North End FSA offers an online North End Family Directory to each family upon payment of their Family and School Association dues for the 2023-24 academic year. This directory includes important dates, family names, phone numbers, addresses, emails, class lists and teacher contact information. We also use the directory to send weekly email updates to all parents that opt in with their email address. The directory is accessible through Directory Spot from your phone or computer.

FSA Dues (\$10) will be collected in the beginning of the school year and you will be provided access to the directory. We believe this will be an important tool for everyone!

Please **ONLY** complete this form if you are new to North End School or need to make changes from last year's directory.

Please submit your information for the Directory using this link or you can use the qr code located below. (please complete this form even if you do not want to be included in the directory)
