

South End FSA

DIRECTORY INFO!

Each year, the South End Family & School Association (FSA) creates the South End Directory. This is a very helpful tool for reaching out to new friends and families! The directory is an app that you can access from your phone or computer.

The directory includes important dates, family names, phone numbers, addresses, emails, class lists and teacher contact information.

Please submit a form if you are new to South End or if you had a fourth grader graduate last year and now have a new Pre-K or Kindergarten student entering the school.

If your child is already listed in the directory, you do not have to respond UNLESS you have had a change in contact information or would like to make a change to the info we have.

Please submit your info [at this link](#) or with this QR Code → →

The form includes space for multiple children per family.

Please coordinate with your child's other parent(s)/guardian(s) so there is only one person submitting info for each family.

Instructions for downloading the app will be provided shortly.

Please email any questions to Kristy Giordano at SouthEndDirectoryUpdates@gmail.com

Thank you!
